Weaves: Lago

Attachment: Woven-In-Bar with Eyebolts Top & Bottom

Architect: BMJ Architects

Application: Facades, Solar Control

Location: Glasgow, Scotland

Market Segment: Healthcare

DESCRIPTION

A three-dimensional zig-zag pattern of 41 woven solar protection elements ensure solar protection and efficient climate and energy management for this neurosurgery research institute. The mesh panels run vertically and on one side form a diamond-like pattern to symbolize the double helix of human DNA.
